Total pipeline expected value this week: ~\$18,600

Priority by Expected Value — Where to Focus Energy

1	Cedar Wealth \$6.5k — Highest realistic expected value this week. Re-anchor the quote firmly on Wednesday.
2	DeltaLogix ~\$4k — Closest to the line. Wednesday call is the close attempt. Remove the two blockers (doc format + payment terms) and get a signature.
3	Zayd Property \$6.5k — STALE. No follow-up in 11 days on a cold quote = near-dead without action. Contact Maya today or tomorrow.
4	Foster & Marsh \$12k — Highest nominal value but lowest probability. Two follow-ups unanswered. Third touch this week — if no reply, mark low-probability and move on.
5	Kontrast upsell — Existing client. Easiest close. Don't underprice it — this is proven trust, not a new sale.

Stale Deal Alerts

Two deals are at serious risk of expiring before May 15.

Deal	Days Since Last Touch	Status	Action Needed
Zayd Property (Maya Al Hashemi)	11 days	Quote sent, no follow-up ever	Send follow-up today — most urgent rescue
Foster & Marsh Legal (James Foster)	5 days	Second follow-up sent, no reply	Third and final touch by Wednesday

RevOps benchmark: deals stale for 14+ days without contact have **<10% close probability**. You have days, not weeks.

Velocity Check — Can You Close Before May 15?

Closable before May 15	Future pipeline (too early)
DeltaLogix (Negotiation — call Wed) Cedar Wealth (Proposal — call Wed) Kontrast upsell (Expansion — call today) Zayd Property (Proposal — if rescued) CRM quotes x2 (Proposal — awaiting reply) Foster & Marsh (possible if responds)	Noor Beauty (Discovery — call Tue) Hala Ventures (Qualified — call Thu) Construction CBL (Qualified — call Fri) Nour Aesthetics (Lead) Marble & Co, Mohammed Tech (Lead)

Speed-to-lead: The 5 new inbounds arrived May 3. Research shows contact within 5 minutes is 21× more likely to qualify. You're now at ~24 hours. Reply today — don't lose this momentum.

TIER 3 — CALL SCHEDULE AND PREP

Monday May 4
14:00 — Nadia, Kontrast Personalberatung Context: Existing client. Onboarding automation already delivered. Now wants a LinkedIn content pipeline. Prep: Have a rough scope ready — market research inputs → AI drafting in their voice → review/approval queue. Come with a price range. Goal: Agree scope and pricing. If confirmed, book a follow-up to define inputs.
Tuesday May 5
08:00 — R.Abdou, Noor Beauty Group Context: Inbound lead. 14-person beauty retail group, Dubai, 4 locations. Manual onboarding ~8h/week. Prep: Standard discovery questions: current process, volume, biggest pain point, who owns it. Bring the onboarding automation case study angle. Goal: Qualify, identify scope, agree next step.
Wednesday May 6

11:00 — Karim, DeltaLogix

- Context:** COO. Scope agreed. Sticking points: audit doc format, 30-day implementation roadmap, and payment terms.
- Prep:** Have a sample audit doc structure ready. Position on payment terms (suggest 50/50 — avoid NET 30 at this stage). Map out a 30-day roadmap outline.
- Goal:** Remove the last objections. Get the signature or a clear blocker.

15:00 — Sami, Cedar Wealth Advisory

- Context:** Managing Partner. Was in progress, went quiet March due to partner transition. Back now.
- Prep:** Recap the original scope: top 50 HNW client draft replies, pulled from client history + tone, reviewable before send.
- Goal:** Re-confirm scope and timeline. Re-anchor the USD 6.5k quote.

Thursday May 7

08:00 — Reem, Hala Ventures

- Context:** Head of Growth, B2B SaaS, Saudi F&B. SDR is doing manual sourcing and enrichment.
- Prep:** Have the outbound automation workflow overview ready. Lead with the SDR time saving angle. Know your pricing range for this scope.
- Goal:** Qualify need and budget. Agree on a proposal call or send a scoped proposal by end of week.

Friday May 8

09:00 — Construction firm, Casablanca

- Context:** Referred by Hicham at Sahel Cafe Group. ~40 people. Every quote is custom — 2–3 day turnaround — losing deals to faster competitors.
- Prep:** The Sahel Cafe reference is a strong trust anchor — lead with it. Focus questions on: quote types, volume per month, what makes them custom, who signs off.
- Goal:** Understand the problem, qualify fit, agree next step.
